

## La/SS-B

### Antigen Specification

**Product Number: 12800**

**Description:**

Human La/SS-B.  
Recombinant antigen for in vitro research and manufacturing use only.

**Immunological function:**

Binds IgG-type human auto-antibodies.

**Origin:**

Recombinant. Expressed by recombinant baculovirus (*Autographa californica* multiple nuclear polyhedrosis virus; AcMNPV) infection of *Spodoptera frugiperda* Sf9 insect cells.

**Expression construct:**

Full-length cDNA coding for the human La protein fused to a hexa-histidine purification tag.

**Biochemical tests:**

SDS-PAGE (purity > 90%); Western blot with i: anti-La/SS-B autoantibody-positive sample; ii: monoclonal anti-His-tag antibody.

**Calculated molecular weight:**

48 kDa

**Calculated isoelectric point:**

pH 6.9

**Immunological tests/Functionality:**

Standard ELISA test (checkerboard analysis of positive/negative samples, including international reference sera obtained from the CDC, Atlanta, GA, USA); line assay and immunodot analyses with positive/negative samples.

**Recommended buffer/storage and handling conditions:**

Recommendations for storage buffer: neutral to slightly alkaline pH and 20% glycerol as cryoprotective agent. Storage conditions: -70°C or below. Repeated freeze/thaw cycles should be avoided.

**Coating concentration:**

0.6-1.1 µg/mL (depending on the type of ELISA plate and coating buffer). Suitable for labeling of functional groups.
