

## LC1 humAb IgG

### **Antibody Specification**

**Product Number: 37100** 

Host: GammaPrim® mouse Clonality: monoclonal Isotype: IgG 1 / kappa

#### **Description:**

Human chimeric monoclonal antibody raised against recombinant formiminotransferase cyclodeaminase (FTCD); identical with the antigen called "liver cytosol type 1 antigen" (LC1).

For in vitro research and manufacturing use only.

#### Immunogen/Epitope:

Human formiminotransferase cyclodeaminase (FTCD); identical with the antigen called "liver cytosol type 1 antigen" (LC1).

#### Immunological tests/Functionality:

ELISA and membrane-based immunoassay with DIARECT's LC1 antigen.

#### Origin:

Produced by heterohybridoma cell line (constructed by fusing peripheral B lymphocytes from a GammaPrim® mouse immunized with LC1 to a hetero-hybridoma fusion cell line).

#### Concentration for assay use:

Concentrations for use as standard and/or positive control reagent in immunodiagnostic assays have to be individually determined by user.

# Recommended buffer, storage and handling conditions:

Recommendations for storage buffer: neutral pH and 10% glycerol as cryoprotective agent. Storage conditions: -70°C or below. Repeated freeze/thaw cycles should be avoided.
